SUMMARY

Electronics & Communication Engineering student with hands-on experience in Embedded Systems, IoT, and AI-driven solutions. Proficient in Arduino, ESP32, MATLAB Simulink, Proteus, and sensor interfacing, with a strong foundation in circuit design and automation. Proven ability to deliver real-world projects through freelancing and leadership roles, including achievements in technical conferences and events. Passionate about bridging core electronics with modern web and AI technologies to build practical, innovative solutions.

TECHNICAL SKILLS

- Programming Languages: Embedded C, Python
- Hardware: ESP32, Arduino, STM32 & Raspberry pi
- Frontend: HTML, CSS, JavaScript
- Tools: VS Code, GitHub, Canva , Arduino IDE ,
- AI Tools: Google AI Studio, Claude, Chatgpt, Copilot

EXPERIENCE

Freelance Web Developer | 2026– Present

Developed responsive websites for NGOs and businesses using HTML, CSS, JavaScript

Delivered 3+ live websites with optimized performance and SEO

Collaborated with clients to gather requirements and deploy Business Website solutions

PROJECTS

1.RF Scrambler for Protection with Intrusion Detection

College Mini Project| Hardware - 2026

To design a cost-effective, embedded security solution that prevents wired & wireless-based threats while ensuring physical perimeter protection through real-time intrusion detection.

2.Automated Attendance System

College Mini Project t - 2025

A smart attendance management system designed to automate the process of recording and tracking attendance, eliminating the need for manual entry. The system captures attendance data efficiently and generates real-time reports, reducing administrative workload and minimizing human error.

3. Smart Street Light Automation & Fault Detection System

IoT Project | Naan Mudhalvan & InGage Engineering Hackathon - 2025

- Developed an IoT-enabled smart street lighting system with automatic ON/OFF control.
- Implemented real-time fault detection and alert mechanisms.
- Reduced energy consumption and maintenance costs.

4. Wireless Campus Network with Security

Network Essential Project | Naan Mudhalvan & InGage Engineering Hackathon 2026

This project involves the design and implementation of a secure wireless network infrastructure for a campus environment. The network provides seamless Wi-Fi connectivity across multiple zones

- Including classrooms, labs, libraries, and administrative areas
- While enforcing robust security measures to protect data and restrict unauthorized access.

5. TechBlitz 2.0 - College Symposium website

*I had to create a Site for Event overview and registration website for
TechBlitz2-o.vercel.app*

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering

Saraswathy College of Engineering and technology - Final year (Till seventh semester)

Under Anna University

Tindivanam 604001

Passed Out: 2023 - 2027

Cumulative GPA: 7.6 /10

HSC - Higher Secondary Certificate

St. Ann's Hr.Sec.School

Tindivanam 604001

Passed Out: 2023

Cumulative GPA: 68%

SSLC - Secondary School Leaving Certificate

St. Ann's Hr.Sec.School

Tindivanam 604001

Passed Out: 2021

Cumulative GPA: 80%

COMPETITIONS & ACHIEVEMENTS

- 2025: 4G Club Hackathon – 3rd Prize
- 2025: Naan Mudhalvan Hackathon-3rd Prize
- 2025: Smart India Hackathon (Internal) Finalist
- 2026: Adhiparasakthi College of Engineering (ECE Tech Event) -1st Prize
- 2026: Adhiparasakthi College of Engineering (EEE Tech Event) -2nd Prize
- 2026: Naan Mudhalvan Hackathon- Finalist

PARTICIPATION SUMMARY

- 2 Hackathons
- 2+ Project Expo
- 4+ Paper Presentations
- 2 Poster Presentations
- 1+ Conferences

CERTIFICATIONS

Introduction to Internet of Things Certification – NPTEL (72%)

Industrial IOT & Industry 4.0 Certification – Naan Mudhalvan (InGage in 80%)

Oracle Cloud Infrastructure 2025 Certified Foundations Associate – Naan Mudhalvan (68%)

LEADERSHIPS & ACTIVITIES

- Founder – DRATFLIX (Web Development & Ideology). dratflix.vercel.app
- TECHBLITZ 2.0 Symposium 2026 - Event Coordinator
- BLUE CROSS– Volunteer

SOFT SKILLS

- Photo editing
- Cooking
- Badminton

LANGUAGE

- English – Proficient
- Tamil – Native
- Malayalam – Medium
- Hindi – Medium
